

AIPNO PRESIDENT ANNOUNCES AIPNO FIRST YOUTH INITIATIVE PROGRAM FOR HIGH SCHOOL AND COLLEGE STUDENTS THIS YEAR IN THE FALL OF 2020

Our youth are the future of our society and their mentoring and development is a top priority for AIPNO. AIPNO will be conducting its first youth initiative program for high school and college students this year in the fall of 2020.

This program will comprise six half hour sessions on various topics of interest to our youth. We plan to hold these web conferences on September 12th, 19th, and 26th (all Sundays) from 7-8 PM. Two half hour sessions will be covered on each date.

Session 1: Leadership training and MBA

Session 2: Bullying and Financial management

Session 3: Research options for high schoolers and college students in the greater Cleveland area. (This session may be longer and take 40 minutes. The second session would be regarding college essays.)

The aim of this program is to educate our younger generation about various career options outside the field of medicine and seed some knowledge about personal finance while also empowering the youth with leadership and life skills.

The AIPNO team is planning to conduct this program as a webinar. We sincerely hope that this activity would be of immense interest for our youth and are looking for 50-100 high school and college students who would like to participate in this activity.

We will provide flexibility of the schedule to suit the availability of the speakers.
